

K-LOVE is the station that has kept me on track with life. Both before and after work K-LOVE has kept me thinking about how I interact and can help out the world. Before finding K-LOVE I was an extremely depressed alcoholic, drug dependant and self centered humanbeing. Through K-LOVE and other organizations I have been guided down a path of being uplifted, concerned, action oriented and committed to helping myself and community beyond alcohol and drug dependency.

The effect of K-LOVE being displaced by a n LPMF broadcaster providing other programming would devastate central Oklahoma. Non-commercial outreach programs like K-LOVE, when gone, can only lead to disaster. In effect when gone, more crime, alcohol and drug dependency, spousal and child abuse, divorce, outreach to the rich as well the poor will not exist over the airwaves. What a waste that would be!

K-LOVE IS a public service that family, friends and co-workers can and have been able to depend on providing public outreach and positive information.
